Flush (comes
with Back Box)

We can offer your clients a choice of flush fitting and surface mounted car operating panels (COPs) depending on the needs of the installation.

Flush COP

We currently manufacture many COPs of all shapes and sizes. Our standard sized flush COP has a 50mm depth to house standard components and we tend to make COPs 70mm deep if a Windcrest unit is being fitted. We custom fit, if required, and are able to use a full array of other manufacturing buttons or indicators. All steelwork is finished to a high standard along with high quality

Head Office & Manufacturing

- Compatability with Lester Controls Controllers

OPTIONS

- Flush Brushed Stainless
- Surface Mount
- Full Height
- Autodiallers, Windcrest or Memco

BUTTONS

- Lester PB Range
- Dewhurst US91 (free issue)
- Dewhurst Jumbo Series (free issue)
- DMG (free issue)
- Schaefer (free issue)

engraving.

Surface Mount COP

This option is quite popular to adopt if no extra work is being carried out on the existing lift car. Our standard format follows our landing stations with chamfered edges. They are of a robust construction and high quality finish. All engraving is by hand and completed by experienced engravers.

Surface Mounted (Chamfered)
